CHESTERFIELD LIBRARY REPORT

1972

New things are happening at the library. A telephone was installed during the summer. Cold running water was installed during the fall months. Both add to the efficiency and serving power of the library.

An Encyclopedia Britannica was given to the library by Mr. and Mrs. Al Ricci. The set includes an Atlas, Dictionary, and year books. This has proven very useful and helpful. Other reference materials were added as the result of a reference course offered by the State of N. H. Opera, Bible, Literature, Citizenship, Astrology, and many others were added. Many new best sellers, both non-fiction and fiction were added to the collection. The children's room continues to be a popular place, and many bright and shiny additions have been added there too. Services of the state bookmobile have greatly increased the services we are able to offer. At the tim of the December stop we borrowed 1,900 books at one time from the bookmobile. Our circulation has continued to increase.

Many thanks to all those who have helped in any way to make the year of 1972 at the Chesterfield Library a better one. Thanks to all those who have given books.

Respectfully submitted,
Edith Darling

REPORT OF THE BUILDING INSPECTOR

Town of Chesterfield

The population of New Hampshire, percentage wise, is increasing faster than that of any other state in New England, and the town of Chesterfield seems to be keeping pace.

From March 16, 1972, through December 30, 1972, a total of 63 building permits were issued. Thirty-one were issued for new homes; garages accounted for nine; additions nine; remodling five; renewals four; barns two and organizational buildings three.

There were more than twice as many permits issued in 1972 as in 1971. Permits for new homes totaled 13 in 1971 as opposed to 31 in 1972, an increase of 138%. The outlook for 1973 would appear to be the same with a possible increase.

THE SPOFFORD FIRE DISTRICT
BUILDING COMMITTEE REPORT
March 8, 1972

The Committee has met and discussed locations for a possible new Fire Station. One location that seemed suitable to the Committee was not for sale. Others would require too much landfill and still be too small a location. The Committee could not come to any specific conclusion as to what, exactly should be done at this time. Therefore, it is recommended that a further study, as to a possible solution to the existing problems of the present Fire Station, be continued.

John K. Schlichting
Thomas W. Allen
Michael K. Wiggin

Motion was made by Donald C. Emery, supported by Robert Callahan, to accept the report of the Building Committee as presented. Vote was in the affirmative.

As no other Business came up, Meeting adjourned at 9:10 p. m.

ADMINSTRATORS' REPORT

January 1973

The teaching-learning process at the Chesterfield Central School is alive and vibrant. A competent staff is hard at work making it so. The atmosphere at the school appears to be reflecting the characteristics of its principal—competence, thoughtfulness, hard working, thoroughness and dignity.

The program of instruction is being and will continue to be evaluated and updated. We continue our attempt to provide similar educational experiences and background as other children in the Union. This, we believe, is important since they all feed into the same high school program. Recent studies indicate that the pupils from the Chesterfield Central School do as well academically at Keene High School as their peers who possess similar abilities.

The school building continues to be maintained at a high level of efficiency. It is a fact that the Chesterfield Central School is one of the most attractive and well kept schools in the Supervisory Union.

A recent report submitted to the State Department of Education relative to Minimum Standards for New Hampshire Elementary Schools, indicates three areas of need for the Chesterfield School:

1. Part-time instructors in art, physical education and guidance.

2. A program and personnel to implement such a program for children who have special learning problems.

3. Library services.

The School Board has committed itself to attempt, within sound fiscal practices, to address itself to the needs. Hopefully, over a period of four or five years most of the deficient areas will be corrected.

A Building Facilites Committee is currently at work assessing the needs of the school. Many of us feel that space should be provided to fully implement a program of library services, to house a resource teacher, to provide space for physical education activities and for community activities. We assume that the Committee will be reporting its findings in the near future.

An organization is only as good as its personnel. The people of Chesterfield can be justly proud of the staff the School Board has assembled at the school. Much time and effort were expended in filling the vacancies which occurred at the school at the end of the last school year. Their time and effort obviously was a good investment.

PRINCIPAL'S REPORT

January 1973

The student like the scientist attempts to gather data, classify this data and make judgments from hypothesis. The question of how does the child learn best—and by what means, seems to bring up an old proverb: "I hear and I forget; I see and I remember; I do, and I understand."

We began our school year with several basic objectives clearly in mind: (1) To reevaluate and strengthen our educational program; (2) To work towards individualization of instruction, so that students may be stimulated in a program of learning activities in which they participate; and (3) To inculcate a feeling of patriotism in the minds and hearts of the students towards a better community, a better state and nation, through discussion, instruction and student body activities.

The 1972-73 school year began on September 7, with 380 pupils enrolled. The enrollment has subsequently dropped to 307.

Testing on a group and individual basis has been accomplished in order to ensure the proper placement of our Chesterfield Central School students. Although without the services of a guidance director, our program is a continuing one built on warm human relationships between students, teachers and principal.

Extra-curricular activities have created much school spirit and student involvement. Programs such as skiing club, dramatics club, science club, chess club, poster making, folk and square dancing and arts and crafts, have contributed greatly to the fine spirit at the school.

Intramural sports have given new meaning and life to student activities. Street hockey on a regularly scheduled league basis has taken on a special meaning at Chesterfield, and ice hockey on Saturdays at Spofford Lake, is a tremendous success. Football, soccer, girls field hockey, volleyball, basketball and baseball are additional components of the sports program. Basketball practice sessions are held at the Spofford Grange Hall three afternoons each week and a school team has played "on the road" in towns in New Hampshire and Vermont.

Educationally, our greatest need is for a special education resource instructor. There are many students with special disabilities who need the type of individualized instruc-

tion which the conventional classroom teacher is not trained nor has the time to give.

We need a Resource Center to house the excellent library and resource materials which we already have for children to explore and utilize. We need expanded kitchen and lunchroom facilities; and the need is fast approaching for a community recreation facility. I believe all of these needs could be realized by the addition of a cafetorium to our existing buildings in the near future.

The progress this year has been a joint effort of professional attainment of staff and teaching personnel. The cooperation of the secretary, nurse, custodians, lunchroom workers and teacher aides, along with the professional instructional staff has been outstanding. The building under the direction of Mr. Merton Davis has been kept in excellent condition making the environment conducive to educational opportunities for children. Mrs. April McDonald has fed our children well and Mrs. Doris Tousley has maintained health standards for all.

The Christmas Pageant under the musical direction of Mrs. Suh Ying Lee Chang, was an outstanding success, playing to a standing room only audience. I wish to publically thank the many mothers who willingly gave of their time to make the costumes for the children.

Our library, the very heart of our school, was manned by a group of extremely dedicated P.T.A. women under the direction of Mrs. Rita DeVittori. My very special thanks to them.

In closing, I wish to express my appreciation and thanks to the people of Chesterfield School District, the individual members of the School Board, Mr. John Day, Superintendent of Schools, Union No. 29, and his entire staff at 1 Elm Street for the kindness and helpful understanding of the School needs of the Chesterfield School District.

Respectfully submitted

SCHOOL LUNCH PROGRAM

January 1973

The Chesterfield School Lunch Program opened September 9, 1972 with two new workers, April McDonald as manager and Hilda Schult as her assistant. The duties of the manager include: making up menus, bookkeeping, ordering the food, cooking and serving the main course. The duties of the assistant are: to be responsible for the bread and dessert, serving the vegetable and dessert, cleaning the cafeteria tables and washing dishes.

Many thanks to Sylvia Thompson who came back to help us out of a jam last April because of the untimely death of Mary Davis. Also to Mrs. Irene Cooper and substitutes Carol Riendeau and Nancy Petschik.

We have not as yet received any Federal Funds so I cannot report what the reimbursement will be.

Since we started out with a deficit and because of the rising costs in food this year, we were forced to go up on the lunches in October. Children now pay .35 and adults .50. We may be forced to go up again. Federal Food Surplus was cut down tremendously and we received no meats, and flour is scarce.

Milk has remained at .04 and the Government is thinking about abolishing this.

We are serving approximately 220 children per day and our facilities are slowly becoming inadequate. Menus are given out in advance to children and they are able to select the dinners they wish to eat. Menus are sent to the Keene newspaper and radio station for publication. Mr. Leather, teacher aide, checks off names as people go through the line, giving us an accurate count of people served each day.

We were fortunate enough this year to have received rolled turkey from the Federal Government which made Thanksgiving and Christmas dinner much easier to cook and serve.

Respectfully submitted,
Mrs. April McDonald
School Lunch Manager

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

In New Hampshire, forest fire control is a cooperative State-Town program. The Town Forest Fire Warden, appointed by the Director, Division of Resources Development upon recommendation of the Selectmen and the State's District Forest Fire Chief is responsible for fire suppression and other related duties. The State shares equally with the town in the cost of most forest fires, except illegal and careless fires, which are charged to the responsible party. The State further provides fire detection services, prevention programs, fire training for town wardens and crews, and back up equipment for fire suppression.

By authority of the State, the Town Forest Fire Warden controls all outside burning in his town except backyard cooking fires. Any person wishing to kindle a fire when the ground is not covered with snow must obtain a fire permit, free of cost, from the Town Forest Fire Warden. No permits will be issued for fires between 9:00 a. m. and 5:00 p. m. unless it is raining, except for commercial purposes.

Please be careful when using fire, remember it can be an extremely useful tool when under control but once allowed to run wild it can become a disasterous and devastating force. Only you can prevent a forest fire.

NUMBER OF FIRES REPORTED
AND ACRES BURNED — 1972 SEASON
